S. A. SMITH, Principal

North Street and Center Avenue

BRADLEY, ILLINOIS

You have been in attendance in high school, and are now graduating at a time when most people in America are looking at the schools to evaluate them. Mass education is being compared with education for the few; education for the student is being compared with education for the state; and most persons are comparing what they think is being done in schools with what they believe should be done.

Much good should eventually come from the special attention that is being given to the schools and to our educational programs; however during the evaluation period harm may be temporarily done and the main point of progress may be missed. Finally, the quality of instruction given is the important factor. You have been fortunate in that respect.

Sincerely yours,

A handwritten signature in cursive script that reads "S. A. Smith". The signature is written in dark ink and is positioned above the printed name of the principal.

This is dancing?

Cold outside?

Boo-Sum buddies!

Let's go walking.

Sitting pretty.

Allezoop

Steel toe.

Is Colin bored?

Watcha' drinking?

This a serious affair.

Alone at last!

All full of hot air . . .

The lost prince . . .

Are they for REAL!

They're gone . . .

Organized confusion.

For me?

The jig's up . . .

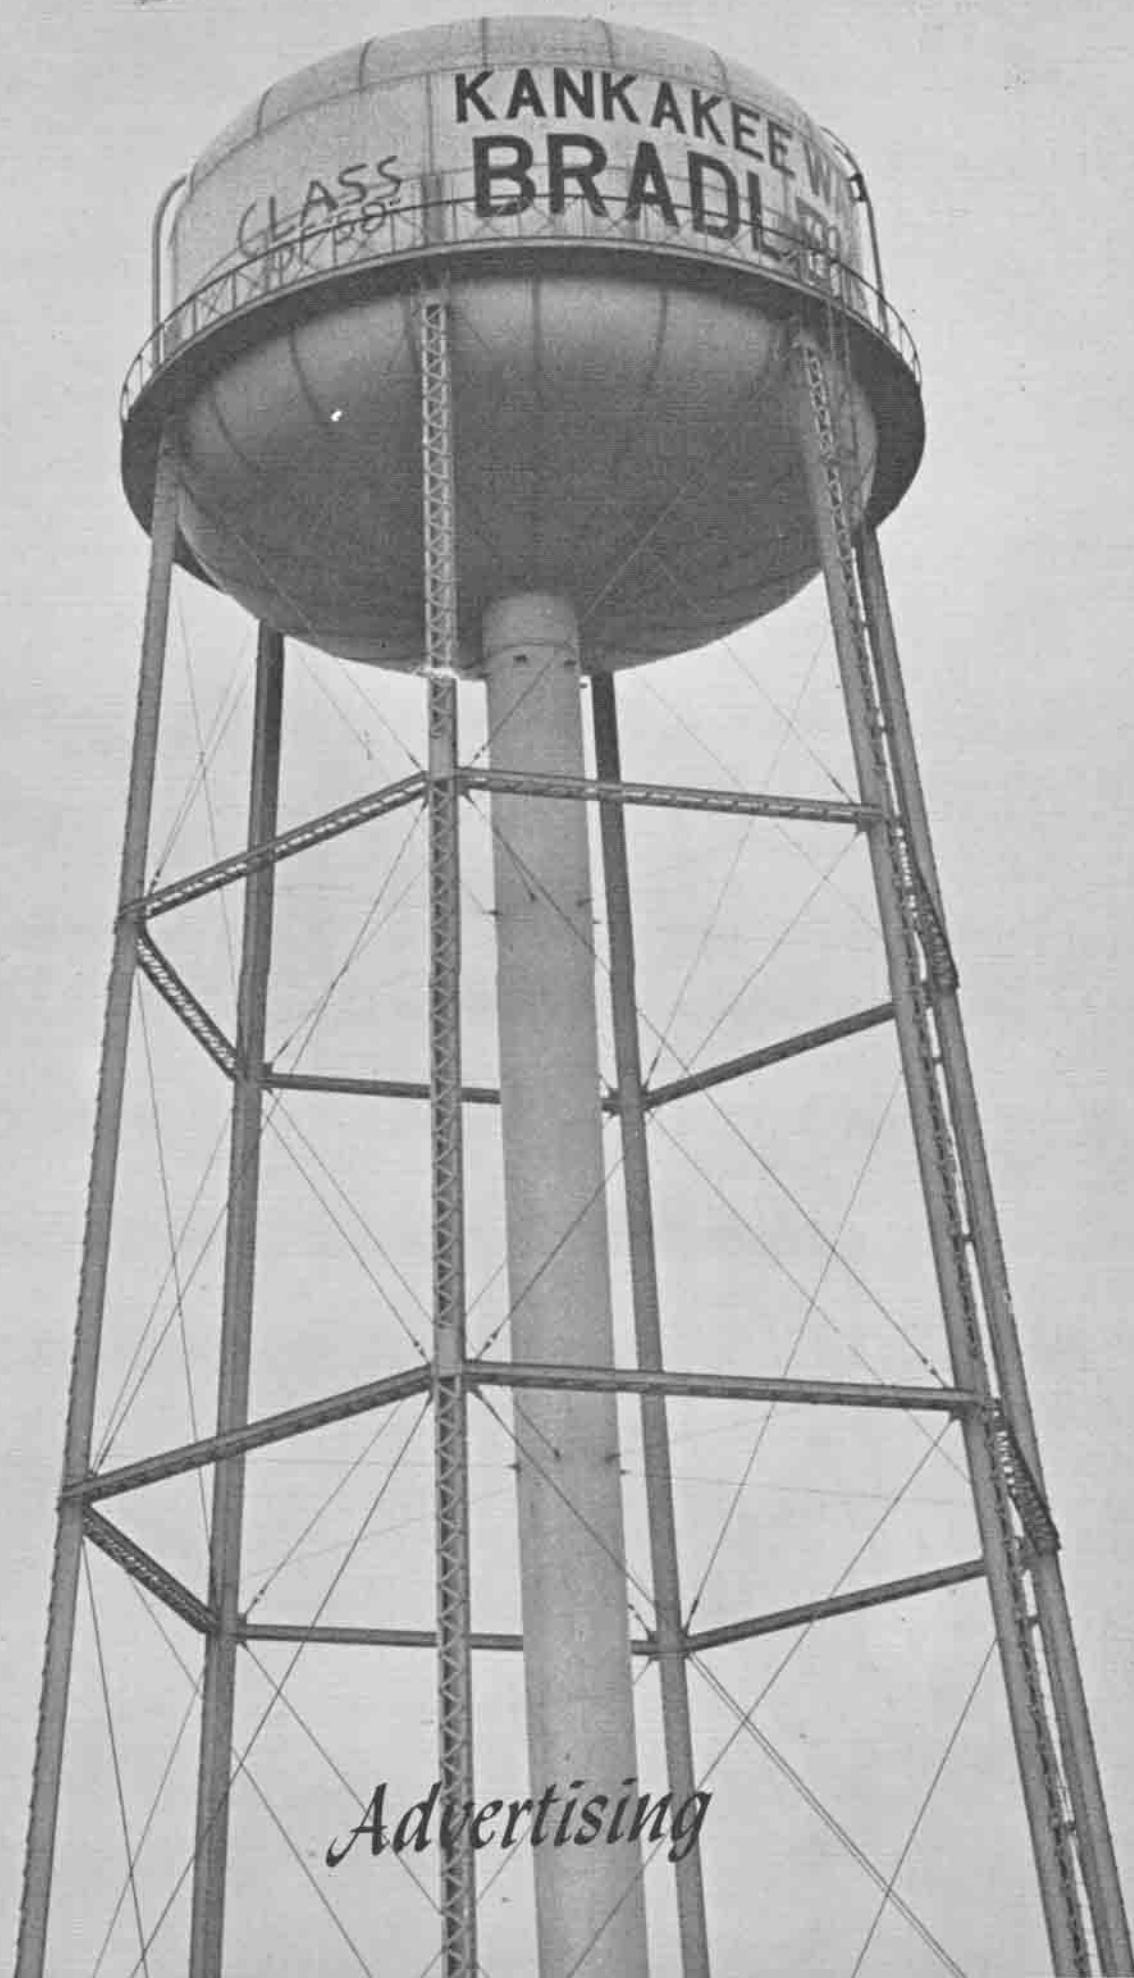

Oh, Al!

The last minute rush . . .

And then we walk.

Once upon a time there was...

a lady

looking for a better
water heater

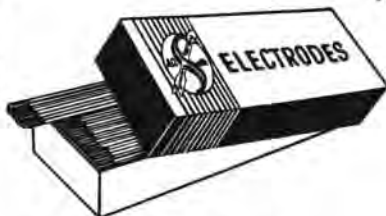

a farmer

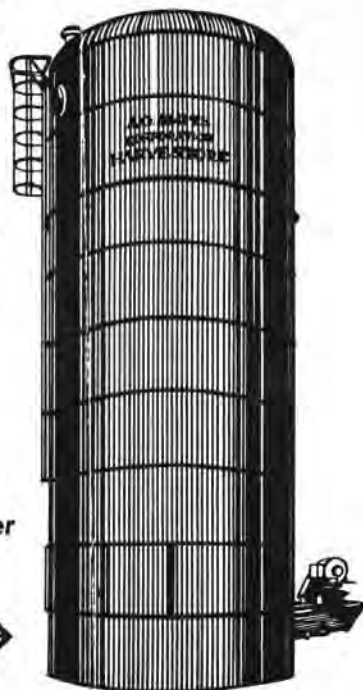

**a shop
foreman**

who wanted
better welding
electrodes

searching for a better
way to store and
process feed

**and they all lived happily ever after
with better products by A. O. Smith**

The lady's answer was a Permaglas glass-lined water heater ... proved in more than 3,500,000 homes. The foreman chose A. O. Smith electrodes — made by welders for welders. The farmer found what he wanted in A. O. Smith's revolutionary, acre-stretching Harvestore feed processing and storage unit.

The key to each story, of course, is A. O. Smith's very special talent for finding a better way through research. It's a talent that has created many happy endings with better products for home, farm and industry—from automobile frames to furnaces and home air-conditioners ... from pressure vessels to line pipe ... from glass-lined processing equipment to petroleum meters.

Through research  ... a better way

A.O. Smith

Kankakee's Accepted
Store for Men
Since 1894

Taking a photograph and projecting it in three dimensions is a triumph of modern science.

It's the third dimension in education that's significant, too!

IN ADDITION
ACCREDITED BY

*University of Illinois as a Class "A" College

*Illinois State Department of Education as a Teacher Training College

Olivet Nazarene College holds high educational standards; maintains a stimulating cultural atmosphere; but it has this 'plus' factor — a vital faith in God which adds meaning to life and gives it third dimension.
